

**Faculty of Health and Medicine,
School of Nursing and Midwifery**

Are you a registered nurse looking to expand your horizons or enhance your clinical career? Would you like to build on your critical thinking ability in clinical practice and develop some research skills? Have you ever considered Honours?

'Honours' is a 12 to 18 month Program offered through the School of Nursing and Midwifery. This program consists of 80 credit points and is offered through online coursework and includes a supervised research component. If you have ever completed a Bachelor's degree in nursing or equivalent and think this might be a pathway for you, it might be time to explore your options.....

Honours candidates will;

- learn how to apply evidence to develop, explore and answer a research question
- gain understanding and application of some research skills
- improve critical thinking and writing skills
- develop independence and initiative
- engage and network with other researchers, locally, nationally and globally

Graduates are highly sought after for leadership positions such as;

- Team Leaders
- Nursing Unit Manager
- Clinical Educators
- Clinical Nurse Specialist/Consultants

Career options include;

- Clinical Research Nurses
- Clinical Practice Development Managers
- Research Project Managers
- Clinical Nurse Consultant in Research
- Conjoint Lecturer positions with University
- Potential Academic career in Teaching / Clinical Research
