Due Recognition for Professor Katherine Clark

July 2013

Professor Katherine Clark's research work was recognised recently at this year's Palliative Care Awards organised by Palliative Care NSW. Professor Clark was presented with an award for '*significance in palliative care research*'.

The awards provide the opportunity to recognise and celebrate the contribution to palliative care in NSW by members of the community. The awards are judged by an independent panel.

Professor Clark was nominated for this award by her colleagues and was able to demonstrate that the research she carries out improves the experience of those requiring palliative care.
